## DETAILED ACTION

### ***Allowable Subject Matter***

1. Claims 1-20 are allowed.

2. The following is an examiner's statement of reasons for allowance:

The instant application is deemed to be directed to a non-obvious improvement over the invention patented in Caid et al. (Caid, US 5,794,178), Gallant (US 5,325,29) and Sadler (US 6,178,396). Caid teaches the relationship among context vectors based on word proximity and co-importance, and forming a tree of clustered nodes from records.

Gallant teaches determining context vectors for each word in a dictionary of context vectors, and a cluster tree for the vectors. Sadler teaches common relations between words and high frequency relations between words.

Determining the statistical significance between the common relations.

Regarding claims 1, 2 and 13, applicants improvement comprises generating frequency vectors for each **non-context tokens** in a corpus based upon counted occurrences of a **predetermine relationship** of the **non-context tokens** to **context tokens**; and clustering the **non-context tokens** into a cluster tree based upon the frequency vectors according to a **lexical correlation** among the **non-context tokens**, wherein the above

references, nor combination thereof teach or make obvious the improvement.

3. Claims 3-12, and 14-20 are allowed, as their parent claims have been deemed allowable.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Bahl et al. (US 5,195,167) teaches determining contextual sets and similarities between features in the sets.
- Ushioda (US 6,178,396) teaches word/token clustering, word classifying, words arranged in order of frequency of appearance and clustered into classes.
